NOVÍ LIDÉ
R I D E R

Instrument connections
- Sound output to the main mix:

1. Output from the Noví Lidé mix (synths)
- 2 x XLR cable

2. Guitar/bass + effects
- 2 x 6.35 mm jack

3. Microphone/vocals
2 x XLR cable or 2 x 6.35 mm jack

Monitors: 2 x monitor carrying the full mix.

Visuals: Projector on site, to which we connect our laptop via HDMI. The projection should be as large as possible, either on us or behind us. 1 song = 1 video. We bring our own person to run the visuals.

Lighting: 2 x blue spotlights, one on each of us. We both need at least minimal lighting throughout the whole show. 1 x white or blue strobe behind us in the centre, flashing occasionally.

Fog machine: Fog the stage at the start of the show and keep a light haze throughout.

Stage footprint of our setup: 3 m wide x 2 m deep.
Setup and connection time: 30–45 min.
Soundcheck time: 15 min.
